

Remote Access to Life Sciences Market Research Reports from *Business Insights*

The North Carolina Biotechnology Center library is offering **offsite/remote access to Business Insights' market research reports**. The subscription includes reports in these sectors: Healthcare, In Vitro Diagnostics, Drug Delivery, Drug Discovery, Medical Devices, Medical Imaging, Pharmaceutical Outsourcing and Consumer Nutrition, over \$500,000 value!

Desktop access includes new reports published each month, as well as an archive of older reports. The Interactive Reports System allows users to search reports by keyword, pull tables and figures into presentations, and translate text into different languages. The online database also includes pipeline databooks for 13 different therapeutic areas (downloadable as Excel tables). See www.business-insights.com for more details about the available reports. Or visit the library for a demo of the product.

Eligibility: Any life sciences company in North Carolina with 20 or fewer employees. Access to the reports will be provided to all employees in the company by password.

Cost: \$1000 per company for one full year's subscription.

Steps to subscribe for remote access:

1. Fill out the information below and return via e-mail to library@ncbiotech.org or fax to 919-990-9521.
2. If eligibility requirements are met, the North Carolina Biotechnology Center will send you an invoice for the \$1000 fee.
3. Upon payment of the invoice, your contact information will be passed along to Business Insights Ltd., and a representative will contact you directly to set up desktop access to the reports, which will expire 12 months from the starting date.
