

Biotechnology Education Forum 2011

March 23, 2011

Vernon James Research Center | 207 Research Station Road | Plymouth, NC

Bringing together individuals involved in education to discuss topics related to biotechnology, available resources, and emerging job opportunities in eastern North Carolina

What is Biotechnology?

What job opportunities are available for students who study Biotechnology?

How can I teach my students about Biotechnology?

Learn the answers to these questions and more at the upcoming Biotechnology Education Forum, an event designed to bring together middle and high school teachers, counselors, and administrators along with community college leaders and to connect them to biotechnology-related coursework and job opportunities. The goal of this event is to send educators back to their schools with ideas about how to link students with coursework and career paths that lead to jobs in biotechnology-related fields.

The event includes:

- Presentations on College and University programs in Biotechnology
- Opportunities in Biotechnology
- Participants from Private Industry
- Discussion on the Future of Biotechnology in the Northeast
- Education and Training Workshop
- Biotechnology Lab Workshop

Visit the conference website at www.ncbiotech.org/bioedforum for:

- Free online registration – Deadline is March 18th
- Agenda and directions
