Philip Benfey is an HHMI Investigator and the Paul Kramer Professor of Biology at Duke University. His research focuses on plant developmental genetics and genomics. He is a fellow of the American Association for the Advancement of Science and a member of the US National Academy of Sciences. Dr. Benfey received his PhD from Harvard University and a DEUG (Diplome d'Etudes Universitaire Generale) from the University of Paris. He co-founded a spin-off company, GrassRoots Biotechnology, which was sold to a large multinational. He now leads a new company, Hi Fidelity Genetics, that applies sophisticated data analytics to plant phenotyping.
