

Alerting Services from Life Science Intelligence

Stay updated on technology and company developments by subscribing to alerts, curated to your specific needs, by LSI's research analysts. Track any of the following:

- What your competitors are doing
- Literature/news about your technology
- Key news and trends in your industry sector
- New potential partners or acquisition targets
- Drug development pipeline and trial updates
- New funding opportunities
- Companies who might need your services

"410 Medical has benefitted from the NCBiotech alerting service for several years, receiving alerts twice a month about newly-published scientific literature, clinical trials, and news articles relating to sepsis and fluid management. These updates enable us to stay on top of the constantly changing landscape."

410 Medical

Data can come from multiple sources, including scientific publications, news articles, clinical trials, patents, company databases and recent deals. We compile and curate the information to meet your specific needs.

Rates and Pricing

Alerts can be billed at LSI's hourly rate (\$140/hour for in-state clients), or you can set up an annual pre-paid retainer with the benefits of a one-time invoice and a discount on the hourly rate (total hours must be used within 1 year) If you're not sure where to start, let's talk about your needs and provide an estimate.

Total hours	Discount off regular in-state rate (\$140/hour)	Annual/per retainer cost
50 hours	10%	\$6,300
36 hours	8%	\$4,637
24 hours	6.5%	\$3,142
12 hours	5%	\$1,596

"For several years, Locus Biosciences has been using the Life Science Intelligence Alerts from NCBiotech. Each month we receive alerts with key intelligence for our potential competitors, and every other month we're provided a detailed report on all pertinent competitive intelligence related to the technology employed in our platform. These reports have become vital to the strategic decision making within our company as the data they provide are pertinent to stakeholders across the company. We have come to rely on these monthly alerts as a key pillar within our competitive intelligence function at Locus."
